**Meet and Connect Breakout Session**  
Instructions for Chairs  
Wednesday, September 25, 1:45-3:15 pm

Organizers will chair the breakout sessions. Please bring your laptop on Wednesday as it will be needed to run the slides submitted by the attendees.

Group and room assignment lists are in the packet.

Each breakout room will have:

- 1) A copy of these instructions
- 2) A list showing who is in each group (on reverse side)
- 3) A flash drive with all of the slides sorted into folders alphabetized by last name. *Please leave the flash drive in the room after the breakout session ends.*
- 4) A projector and screen

**Procedure:**

Because each person will get a chance to introduce themselves and their research or technical work, it is not necessary to go around the table for introductions at the beginning.

1. Each person gets one minute to introduce themselves, talk about their slide, then take two minutes to answer questions. You should watch the time carefully, cut off questions after three minutes, and move to the next person. There are ~13 in each group so this should take about 45 minutes or half the allotted time. The purpose of doing this "speed-dating" style is to make sure that we hear from everyone in a somewhat equitable manner.
2. The balance of the time is open for questions and discussion regarding anyone's work, or whatever other topics come up (hopefully related to engineering 😊).
3. At 3:15, close the discussion. This is followed by a coffee break. Leave the flash drive in the room. We reconvene for the next session in the Auditorium at 4:00.

Thank you.
